# Muktar Opeyemi Akinola
## Solutions Architect

## SUMMARY

As a Solutions Architect with over 4+ years of experience, I have developed a comprehensive skill set and a deep understanding of the challenges and opportunities that organizations face in today's rapidly evolving technological landscape. My expertise lies in developing scalable, high-performing, and cost-effective solutions that meet the complex needs of businesses across various industries. With a strong foundation in cloud computing, virtualization, and containerization, I have successfully delivered projects that have helped organizations streamline their operations, enhance their security posture, and improve their bottom line. I have a customer-centric approach to problem-solving and prioritize understanding the unique needs of each organization I work with. I excel at collaborating with cross-functional teams, managing stakeholders, and providing technical leadership to ensure that solutions are delivered on-time, within budget, and to the highest quality. Throughout my career, I have gained extensive experience in designing, developing, and implementing complex enterprise applications, leveraging technologies like AWS

## PERSONAL DETAILS

**Address:**               No 27 Maloko Street Offa-garage, Ilorin, Kwara State.

# Work Experience

### Solution Architect
**TECHTREND AFRICA**                                            **DEC 2020 - PRESENT**

+ Supervision and motivation of development teams to improve their efficiency and productivity

+Assessment of systems architecture currently in place and working with technical staff to recommend solutions to improve it

Provision of updates to stakeholders on product development processes, costs and budgets

### Solution Architect(support)
**AXLON IT, Inc.**                                            **APR 2018 - DEC 2020**

+ Conducted regular evaluations of the system architecture and collaborating with project management teams to improve the designs

+ Design, modification, and testing technical architecture

+ Building and migration of software and services across the organization.

# Education

### (B. Sc.) Computer Science
**UNIVERSITY OF ILORIN**                                            **2014 - 2018**

# CORE COMPETENCIES

+Defining a solution using architectural design principles based on customer requirements

+Architecting and deploying secure and robust application using AWSTeamwork and Collaboration

+Ability to provide imlplementation guidance and best practices to the organization throughout the life cycle of a project

+Hands-on skills using compute, networking, storage, and AWS database services

+Defining and identifying technical requirements for AWS-based applications

+Knowledge of network technologies as they relate to AWS

+Knowledge of security features and tools that AWS provides

+Linux and SQL administration skills
